

## END-USER SOFTWARE LICENSE AGREEMENT

**IMPORTANT READ CAREFULLY:** This End-User Software License Agreement (EUSLA) is a legal agreement between you (either an individual or a single entity) and JPS Communications, Inc., for the software portion of this ACU-1000/TRP-1000 System, which includes the accompanying computer software, printed materials and any “online” or electronic documentation (“Software”). By installing, copying or otherwise using the Software, you agree to be bound by the terms of this EUSLA. If you do not agree to the terms of this EUSLA, promptly return the unused Software and accompanying JPS product (s) to the place of purchase for a full refund.

### Software Product License

The Software is protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. **THE SOFTWARE IS LICENSED, NOT SOLD.**

1. Grant of License. This EUSLA grants you the following rights:
  - a. You may install and use one copy of the Software on a single computer.
  - b. You may also store or install a copy of the Software on a storage device, such as a network server, used only to install or run the Software on your or other computers over an internal network; however, you must acquire and dedicate a license for each separate computer on which the Software is installed or run from a storage device. A license for the Software may not be shared or used concurrently on different computers.
2. Description of Other Rights and Limitations.
  - a. You may not reverse engineer, decompile, or disassemble the Software, except and only to the extent that such activity is expressly permitted by applicable law notwithstanding this limitation.
  - b. The Software is licensed as a single product. Its component parts may not be separated for use on more than one computer.
  - c. You may not rent or lease the Software.
  - d. You may permanently transfer all of your rights under this EUSLA, provided that you retain no copies, you transfer all of the Software (including all component parts, the media and printed materials, any upgrades, this EUSLA and, if applicable, the certificate of authenticity) along with the accompanying JPS product, and the recipient agrees to the terms of this EUSLA. If the Software portion is an upgrade, any transfer must include all prior versions of the Software.
3. Termination.
  - a. Without prejudice to any other rights, JPS Communications, Inc. may terminate this EUSLA if you fail to comply with the terms and conditions

of this EUSLA. In such event, you must destroy all copies of the Software and all of its component parts.

4. Copyright.

- a. All title and copyrights in and to the Software (including but not limited to any images, photographs, animations, video, audio, music, text and “applets,” incorporated into the Software), the accompanying printed materials, and any copies of the Software are owned by JPS Communications, Inc. The Software is protected by copyright laws and international treaty provisions. Therefore, you must treat the Software like other copyrighted material except that you may either:
  - (i) make one copy of the Software solely for backup or archival purposes, or
  - (ii) install the Software on a single computer provided that you keep the original solely for backup or archival purposes.

5. Dual-Media Software.

- a. You may receive the Software in more than one medium. Regardless of the type or size of the medium you receive, you may only use one medium that is appropriate for a single computer. You may not use or install the other medium on another computer. You may not loan, rent, lease, or otherwise transfer the other medium to another use, except as part of the permanent transfer (as provided above) of the entire JPS ACU Controller.

6. U.S. Government Restricted Rights.

- a. The Software and documentation are provided with RESTRICTED RIGHTS. Use, duplication, or disclosure by the Government is subject to restrictions as set forth in subparagraph (c) (1) (ii) of the Rights in Technical Data and Computer Software clause at DFARS 252.227-7013 or subparagraphs (c) (1) and (2) of the Commercial Computer Software-Restricted Rights at 48 CFR 52.227-19, as applicable.
